Heaven awaits for Easter fans

CHOCOLATES and Easter go together like sand and sea.

And for those extra-special super scrumptious confections it's hard to go past Nina's Chocolates at Gymea.

"People who come here feel good. The service is terrific and the chocolates are of a superior quality," says food technologist and owner George Magganas (pictured left).

Belgian chocolate, its smooth texture "fine in the mouth", is used and is what makes Nina's Chocolates stand above the rest.

"We have lining our shelves traditional eggs and bunnies and the special freckled egg, a colourful delight of the finest Belgian chocolate covered with hundreds of thousands."

This year Nina's have made a whopper of an Easter egg towering 75cm tall, besides a warren of chocolate rabbits, chocolates truffles, as well as rocky road eggs.

Nina's Chocolates are offering a special Easter gift and a raffle that will give some lucky sweet tooth a chance to trap a giant 2kg rabbit, made of course of the finest chocolate from the tip of the ears to bushy tail.

Nina's Chocolates is at 27 Gymea Bay Road, Gymea, phone 9526 6770.
